20. Rewiring Epi Les Paul

I installed a **Gibson** 57 classic and a classic plus humbucker in my **Epiphone Les Paul** a couple of years ago. I didn't change the wiring, pots or caps. It has a good tone but not as good as my **Gibson LP**. Can I improve the tone by changing the pots and caps? Thanks for any advice on this

21. Epiphone Les Paul Junior

My 2010 Junior is a solid body, probably Asian "mahogany" guitar, that sounded acoustically great before I even modded it. My mods include CTS pots, .47uF cap with '50s Junior **wiring**, amber knobs, Sperzel-type locking tuners, GFS Mean-90 pickup, Tusq nut, and I dulled the poly finish down.

22. Les Paul Wiring Harness Six String Supplies

This **Les Paul**® **wiring** harness will fit genuine **Gibson**® and **Epiphone**® USA models. The pot shaft diameter is 9.52mm. It can fit the vast majority of imported **Les Paul**® copies but it is likely you will be required to drill the tone and volume control holes through the body to a larger diameter (M10) to allow for the larger US made CTS pots.

23. Best Les Paul Wiring Harness Page 1 Joe s Guitars

That's what I am trying to achieve, I am enamored by the sounds of original bursts just for the fact that they are at the heart of the majority of my favorite recordings, so I am looking for the CTS Pots with accurate taper, and Paper in oil caps, I love the sound of my **les paul** now, but I heard that changing the pots and caps make a world of difference, and plus **gibson** doesn't get the taper ...
